

SUBMITTAL: ABS SURFACE MOUNT FIRE EXTINGUISHER CABINET

The ABS tub is constructed of injection-molded ABS plastic for a dent-, rust- and corrosion-proof protection for you fire extinguishers. These impact-resistant cabinets include brass lock, cover and labels. The cover is constructed of crystal polystyrene.

Outdoor Use: Only red tubs with red covers are intended for outdoor use – they are UV-resistant. Outdoor use of tubs or covers in other colors may be subject to yellowing.

Meets UL94HB standard for fire retardancy.
