

SUBMITTAL: CLASSIC FIRE EXTINGUISHER CABINETS

PAGE 1 OF 1

This Economical Fire Extinguisher Cabinet is Ideal for Surface-mounted or Recessed Installations.

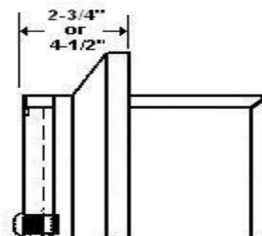

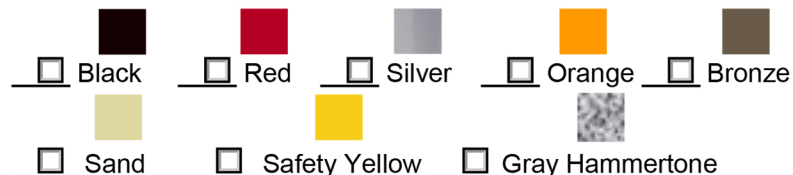

Construction:

White powder-coated galvanized steel or white powder-coated .040" aluminum for rust-resistance. Top-loading .060 acrylic front protects the extinguisher from the elements. Twin Top Lock with cylinder lock secures glazing against theft, weather and dust. Includes break hammer and chain.

Recessed Models: Feature a 1½" wide by 2-3/4" or 4-1/2" high profile trim flange to cover wall opening edges.

Lock: Front-mount cylinder locks can be keyed-alike.

Optional Features at Additional Cost: Optional colors.

1½" Wide Trim Flange on Recessed Models
Optional Orange Color Shown
