

## FIRE HOSE AND VALVE CABINETS

## VC1818 and VC2626 SERIES

## TO SPECIFY THE VC1818 and VC2626 SERIES:

 Insert, after "VC," the appropriate prefix for the trim and door material (please refer HOW TO SPECIFY) AND ORDER LARSEN'S FIRE HOSE AND VALVE CABINETS).

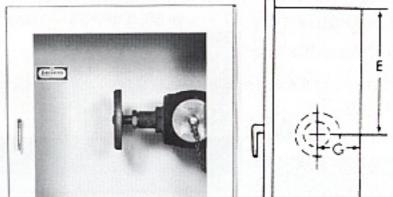

If STEEL - Use S.

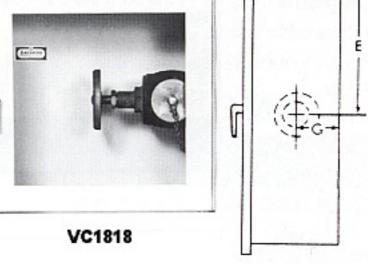

If ALUMINUM - Use AL.

If STAINLESS STEEL - Use SS.

If BRASS - Use B. If BRONZE - Use BZ. Select the required model number from the table below.

Select the door style from the illustrations on HOW TO SPECIFY AND ORDER LARSEN'S FIRE HOSE AND VALVE CABINETS.

The VC2626 Series is designed specifically to meet fire

codes which require the continuous revolution of a 12" long spanner wrench.

models with an "FS" prefix. No knock-outs are provided with fire-rated cabinets. Pipe holes must be drilled by installer and complete instructions are supplied with each fire-rated valve cabinet. For complete details of the "Flame-Shi eld" o ptio n. VC4016 and VC3616 SERIES

NOTE: "FS" models denote Larsen's "Flame-Shield" fire-rated cabinets. When specifying Larsen's "Flame-Shield" fire-rated cabinet option for the VC1818 and VC2626 Series, refer to the dimension chart above and select the

291/2 x 291/2

291/2 x 291/2 x 81/2

## Larsen's exclusive VC4016 and VC3616 Series provide an attractive, innovative, and economical method of

Surface Mtd.

VC2626-SM

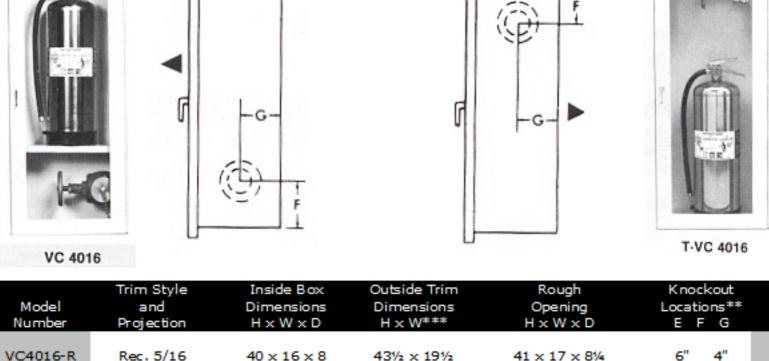

housing a fire extinguisher and a fire department valve. Both the VC4016 and VC3616 support the extinguisher with a heavy gauge shelf. The shelf in both units is located 12" up from the bottom of the cabinet, leaving approximately 28" for the extinguisher height in the VC4016 and 24" in the VC3616. A more economical option is available for both units. As pictured at the left, the shelf can be deleted with the

valve installed at the top of the cabinet. With this option, the 'F" dimension for the knockout location (see chart at left) is measured from the top of the cabinet. To specify this unit, see below. TO SPECIFY THE VC4016 and VC3616 SERIES:

Insert, after "VC," the appropriate prefix for the trim and door material (please refer to page 13).

If STEEL - Use S. If ALUMINUM - Use AL. If STAINLESS STEEL - Use SS. If BRASS - Use B. If BRONZE - Use BZ. Select the required model number from the table below.

- 3. If the Gemini Door is required, see DESIGNER LINE DOOR STYLE OPTIONS GEMINI and use the prefix "G" before the model number. If the Occult Door is required, refer to OCCULT SERIES and use the prefix "O" before the model number Select the door style from the illustrations.
- 5. If the shelf is to be deleted with the valve installed at the top, insert the prefix "T" before "VC" and note the appropriate knockout location.
