

TYPICAL FIRE-RATED INSTALLATION

FIRE-FX OPTION - FIRE RATED CABINETS

JL Industries Was the First Company in the Industry to Design and Patent the Fire-Rated Option for Cabinets - the FIRE-FX™ Option. Cabinets are Manufactured to Meet Building Code Specifications for Fire-rated Wall Situations.

- Warnock Hersey Listed for 1 and 2 hour Combustible and

Non-Combustible Wall Systems. Intertek

- Eliminates the Need to Line the Wall Opening with Fire-Rated Material.
- Retains the Integrity of the Fire Barrier.
- Conforms to ASTM-E814-83 and UBC-43-8

Most Recessed Cabinets in our Product Line are Available as Fire-Rated Cabinets, with many in [Stock](#) in Our Warehouses. See [Submittal Pages](#) for Detailed Information.

To order or specify, add the Fire -FX™ Option to the end of the seven-digit JL model number. For example, if you want an Ambassador "1017F10" with the Fire -FX™ Option, ask for the "1017F10FX".

Find the Product Page for the Model that you Want, and Select the "Fire-Rated Submittal" on the right hand side of the page.
